PRINCIPAL'S MESSAGE

WHICH WAY TO GO IN EDUCATION

Do you students realize that going to school to learn facts is rapidly becoming old fashioned? Fifty years ago it was reasonable to believe that all schools had to do was teach "packages" of information. These packages were all the subjects, such as History, English, Civics, Biology and others.

Since we have had such a knowledge explosion it is no longer possible to teach one all the facts -- not even in two life times. Information about our Universe and society is doubling every ten years.

What ten should we teach? Surprisingly enough educators are taking another look at "Readin, Writing, and Rithmetic." To be able to learn our place in life and to be happy we must have a good foundation in these good ole fashioned three R's.

We must be prepared to think and to consume broad intellectual concepts. In short, we should be able to "get the big picture." One of the broad concepts that schools should attempt to teach includes, human decency, consideration for others, fairness and the ability to get along with our neighbors as well as work out our disagreements with other races and peoples. Perhaps number one in our pursuit for education would be that finding a true religious philosophy.

So you see, facts and information does you very little good if you are not able to orient yourself and your information to a highly complex society. Perhaps you should think about what you want in education.

Daniel M. Inman, Principal
Joseph City School

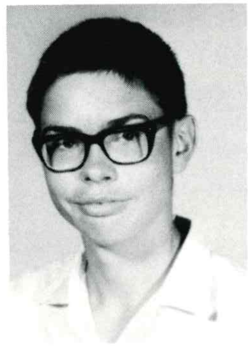
LAST WILL & TESTAMENT



I, Douglas Miller, do wish to bequeath a few of my beloved belongings to a few of my beloved followers. To Steven Hansen, in case he doesn't make it, I would like to leave a portion of my superior intelligence, which I hope he can use enough to make up for my abuse of it. Next I would like to give my ability to get lockers surrounded by the veirdest people you could imagine, to Steven Miller.

To Rhonda and Keith I leave all the school papers, English ditto sheets, geometry assignments and History and divers education tests.

Since I need all else for the future education of my mighty brain powers, I must now depart from this dearly beloved salt mine.

I, Diann Porter, upon leaving some of my best years of school behind me, would like to leave some of my PRICELESS possessions behind. The unfortunates who have to stay behind will need them.

To Donna I leave Wayne. I'm sure she will enjoy that. Then she won't have to sneak out nights.

To Steven Miller I leave Brother Zundell. You get along just beautifully together. I knew you'd love that!

To Susan Morris I leave the back row seat in Mr. Hubbard's class. Isn't it fun though?

To Evelyn I leave my ability to argue with all the teachers. (On any subject!)

To Douglas I leave all of my "1" papers in hopes he can use them to get to Holbrook the next year.

To Mr. Hansen I leave the promise of being buried in a ginneysack so he may live a few years longer.

To Mrs. McGinnes I leave! I'm sure she'll appreciate that.

I leave my locker #5 to Clifford in hopes that someday he will be able to reach it. Maybe this will give him something to grow for.
